

We did not meet with the client this past week, but we've set up recurring meetings starting this upcoming Thursday. In preparation for that, we've been working on the following action items that were discussed in our last meeting:

- **Week 1 Tasks:**

- Researched insights and collected graphics for potential remodel ideas
- Drafted and sent Cedric our strategy for implementation to get his feedback
- Worked on graphics and execution strategies, including conducting relevant research
- Scheduled the appointment and began preparing meeting questions and a detailed agenda
- Created a preliminary analytics document with current social media data to establish a baseline for future comparisons
